

REGIÃO AUTÓNOMA DA MADEIRA

INTERNATIONAL SHIPPING REGISTER OF MADEIRA

"As you may recall, in 2003 we advise that all deck officers in charge of the radio communications on board must have their GMDSS certificate recognised.

When the original certificate of competency includes the radio communications function or regIV/2, our endorsement of certificate of competency also includes this function.

However, it came to our knowledge that during some PSC or Vetting inspections, the inspectors often demand for separate endorsement of certificate of competency and certificate of GMDSS.

To avoid the a.m. issues during PSC or vetting inspections, we **strongly** recommend your company to request for a separate endorsement of GMDSS certificate."

With best regards,

Paulo Camacho
Tec. Commission
